Job Description

A **Research Technician III** position is immediately available in the lab of Dr. Ryan Hunter ([Department of Microbiology & Immunology](#)) for a motivated research associate to manage day-to-day laboratory operations on various Cystic Fibrosis Foundation / NIH-funded studies focusing on the microbiology of chronic airway disease. This translational effort will leverage cutting-edge stable isotope probing and proteomic technologies, genomics and microbiome analysis, imaging, epithelial cell culture, and animal models of airway disease to probe *in vivo* bacterial activity and their interactions with the host epithelium.

Responsibilities will include:

- Conducting routine experiments following appropriate protocols and procedures
- Recording results and maintaining accurate records of experiments

- Performing data interpretation, statistical analyses, data interpretations, and communicating findings with the PI
- Assisting in writing manuscripts
- Training junior members of the laboratory and assisting others when/where expertise is needed
- Performing weekly lab maintenance duties
- Keeping detailed ordering and budgetary records that apply to specific grants
- Investigating and evaluating vendors and products
- Managing IRB/IACUC/IBC protocols and ensuring regulatory compliance
