liaison work, as well as consulting to the Tufts communities of students, parents, faculty, and staff regarding students of concern. We also provide mental health crisis intervention and emergency on-call services to the campus community

### What You'll Do

The CMHS Staff Clinician/Urgent Care specialist will function as member of the CMHS clinical team, providing the full range of mental health services to Tufts University students from the Medford and SMFA campuses, participating in meetings, trainings, committees, etc. In addition, the primary direct service portion of this position will be split between provision of urgent care for students requiring crisis intervention and/or emergency care, including admission to and discharge from hospital. In this context, the clinician will work closely with partners on campus (such as Health Center Staff, Deans office, and others) as well as off campus (hospital ERs, inpatient teams, and outpatient clinicians). The remainder of clinical time will be devoted to providing the full range of services to eligible students including consultation, assessment, and brief individual treatment, as well as group treatment, referral assistance, outreach, and programming.

We are always committed to strengthening and expanding culturally competent clinical and programming expertise in a number of areas including; providing relevant and effective services to communities of color; gender identity including non-binary, transgender, and related issues; working with students on the autism spectrum; assisting students with eating and body image disturbances; misuse of alcohol and other drugs; and working with international and first-generation student issues.

### What We're Looking For

#### Basic Requirements:

- Must be licensed in Massachusetts as an LCSW, LICSW, LMHC, or Psychologist Provider license
- Experience evaluating and triaging complex, high acuity, and/or high-risk cases in a fast-paced environment
- Mental health risk assessment, crisis intervention, and emergency management experience
- Clinical experience with college student/young adult populations and ability to work collaboratively on a team
- Must be well-versed in and comfortable with short-term treatment and possess strong generalist experience with a variety of issues common in college populations
