Job Description

The Clinical and Translational Science Institute (CTSI) and its Clinical and Translational Science Award (CTSA) represent a large NIH Infrastructure grant to support clinical and translational research at the University at Buffalo (UB) and the Buffalo Translational Consortium (BTC) partner institutions under the leadership of the Director of the CTSI. An important part of the research of the CTSI is to perform advanced imaging. The Center for Biomedical imaging (CBI) is a centralized core unit of the CTSI program. The facility houses three state-of-the art scanners, among which is the Positron Emission Tomography/Computed Tomography 690 (PET-CT) scanner.

The PET/CT position includes the following responsibilities:

- Assist with periodic radionuclear compliance requirements of the PET/CT scanner in the CBI
- Dose calibrator/wipe counter maintenance (daily, semi-annual, etc. QA) and contamination

surveys.

- Perform imaging of subjects on the PET/CT scanner in the CBI for human studies
- Perform imaging of subjects on the CT scanner in the CBI for preclinical studies
- Perform other duties and/or tasks as assigned.
- Adhere to all administrative and personnel policies of the Research Foundation for SUNY and the CTSI
