Job Description

The Center for Computational Research (CCR) at the University at Buffalo (UB) invites applications for a full-stack scientific programmer. CCR (www.ccr.buffalo.edu) is a leading academic supercomputing center that maintains high performance computing and storage resources dedicated to supporting the university's research activities. The Center is seeking to hire highly motivated individuals who wish to work in a dynamic research environment. The ideal candidate will be a full stack developer, comfortable working in a Linux/Unix environment with both front and back-end technologies including JavaScript, HTML5, PHP, Python, and various data warehousing technologies.
