<b>Job Description</b>	

**Lead Programmer Analyst**

**Position Summary**

The University at Buffalo, Department of Pediatrics, and Division of Behavioral Medicine is looking for a skilled leader to manage large projects through their entire project lifecycle.

**Key responsibilities include:**

- Develop, implement and maintain projects typically spanning one or more years that impact multiple federal grants.
- Lead cross-functional teams within multi-disciplinary fields.
- Ensure that project resources are utilized in an effective and efficient manner.
- Resolve any IT problems delaying progress on the projects.

The Division of Behavioral Medicine offers a productive environment of NIH-supported investigators and is part of the Department of Pediatrics, which provides access to clinical environments for the development of a research program.

University at Buffalo is an affirmative action/equal opportunity employer and, in keeping with our commitment, welcomes all to apply including veterans and individuals with disabilities.

**Minimum Qualifications**

- BA or BS in related field
- Leadership and/or analytical experience with data, systems, and operations
- Strong technical understanding in programming languages i.e., JavaScript, HTML, CSS, PHP, and tools i.e., Git
- Experience with SQL databases
- Proficient organizational and time management skills
- Excellent oral and written communication skills and ability to work well autonomously and as a team member

**Preferred Qualifications**

Project Management Certificate (PMP) certified.

Programming experience. Minimum of two (2) years supervisory experience, preferably in a computing environment. Ability to formulate programming code in two (2) or more programming languages may frequently be required.
