**Job Description**

Registered Nurse, Health Services (Full-time) - (190294)  
Description

Embry-Riddle Aeronautical University is currently recruiting for a full time Registered Nurse to join the Health Services Team. This is a 12-month first shift position and work hours are between 8am-6pm Monday - Friday with an occasional weekend day. The mission of the college health nurse is to enhance students' higher education experience by modifying and removing health-related barriers to learning to make informed decisions about health related concerns and empowering students to be self-directed and well-informed consumers of health services.

Application of the nursing process are as follows:

**Assessment:**

The nurse will use evidence-based nursing to collect subjective and objective data about a patient to identify patient's problems, risks and outcomes for enhancing health. Identify health related barriers to learning

**Diagnosis:**

The nursing diagnosis is based on data obtained during the nursing assessment

**Outcomes/Planning:**

The nurse will prioritize nursing diagnoses according to severity and potential for causing serious harm. For each problem a measurable goal/outcome is then set. For each goal/outcome, the nurse selects nursing interventions that will help achieve the desired goal or outcome

**Implementation:**

The nurse will implement the plan of care and perform the determined interventions that were identified to help meet the goals/outcomes. Some tasks may be delegated to other individuals involved in the patient's care

**Evaluation:**

The nurse will evaluate the patient's progress toward achieving the goal/outcomes

**Other responsibilities:**

Engagement in evidence-based nursing practice

Understanding and complying with state licensure laws

Incorporation of self-care, health promotion, disease prevention and wellness theories

Promotion of patient rights and responsibilities

Complying with HIPAA and FERPA, privacy, and confidentiality requirements

Leveraging campus community services

Application of the principles of team building and consensus building skills

Use of active communication skills

Effective public speaking skills

Collaborate with campus professionals to facilitate programs that promote student and employee wellness

Knowledgeable on the Federal Aviation Regulations (FAR) to make informed decisions regarding the grounding and release of ill or injured flight students.

Responsible for documenting in electronic medical records (EMR) and in the flight line's software program (ETA)
