**Job Description**

Systems Administrator 2 (7303U) 2166 - 2166  
About Berkeley

The University of California, Berkeley, is one of the world's most iconic teaching and research institutions. Since 1868, Berkeley has fueled a perpetual renaissance, generating unparalleled intellectual, economic and social value in California, the United States and the world. Berkeley's culture of openness, freedom and acceptance academic and artistic, political and cultural make it a very special place for students, faculty and staff.

Berkeley is committed to hiring and developing staff who want to work in a high performing culture that supports the outstanding work of our faculty and students. In deciding whether to apply for a staff position at Berkeley, candidates are strongly encouraged to consider the alignment of the Berkeley Workplace Culture with their potential for success at [\[url=https://apptrkr.com/get\\_redirect.php?id=1678501&targetURL=http://jobs.berkeley.edu/why-](https://apptrkr.com/get_redirect.php?id=1678501&targetURL=http://jobs.berkeley.edu/why-)

#### Application Review Date

The First Review Date for this job is: November 5, 2019.

#### Departmental Overview

The California Institute for Quantitative Biosciences (QB3) is a cooperative effort between the state of California, private industry, venture capital, and the University of California campuses at Berkeley, San Francisco, and Santa Cruz. In order to stimulate discovery at the intersection of the physical and biological sciences, QB3 promotes multidisciplinary research at world-class facilities, creates innovative educational programs, and fosters industry partnerships. The Institute's more than 180 researchers decipher the complex systems involved in living systems and discover ground-breaking applications for that basic knowledge in the areas of health, energy, and the environment.

#### Responsibilities

- \* Applies professional concepts to implement network communications and solutions.
- \* Under general supervision, implements system enhancements (software and hardware updates) that will improve the performance and reliability of the system.
- \* Under general supervision, manages centralized computer servers.
- \* Analyzes, installs, modifies and supports operating systems, databases, utilities and Internet/intranet-related tools.
- \* Applies professional concepts to conduct systems programming and systems support activities.
- \* Operates campus' internal data communications systems, including LANs and WANs.
- \* Under general supervision, implements networked systems.
- \* Assists with execution of security control to prevent hackers from infiltrating campus information.
- \* Assists with maintenance of security systems for routers and switches.
- \* Applies professional concepts to administer security policies to control access to systems.

#### Required Qualifications

- \* Must be able to communicate technical information in a clear and concise manner, both in writing and verbally.
