Job Description

Description

Embry-Riddle Aeronautical University – Worldwide is currently hiring a full-time instructor to help military veterans launch themselves onto a second great career as an IT professional. Join our teaching team and help us bring the Microsoft Software and Systems Academy (MSSA) program to an Embry-Riddle Aeronautical University – Worldwide classroom in Fort Bragg, NC. This program delivers industry-leading systems and software courseware with ERAU's proven instructional methods, using a combination of classroom, virtual labs, and student project instructional techniques. It transforms veterans with little or no IT experience into competent foundational practitioners via intensive hands-on experiences focused on current best IT practices.

At this time, we are hiring full-time faculty instructors to teach accredited undergraduate technology

IT Trainer, Cloud/Web Applications Development (Fort

courses in the area of Cloud Applications Development. Teaching will be in a face-to-face environment. Curriculum maintenance and lecture preparations will be done asynchronously from your home office. The faculty instructor will teach during 4 out of the 5 terms each year, and then utilize the 5th term to work on professional development and curricular activities.

This position is eligible to receive ERAU's benefit package (<https://careers.erau.edu/benefits/>), as well as professional development funds, a technology stipend, and more.

Relocation assistance is available for this position for those willing to relocate to Fort Bragg, NC.

For more information on the MSSA program, please visit <https://worldwide.erau.edu/microsoft>

Qualifications

Required Knowledge, Skills and Experience

Candidates must have a Master's degree in computer science, information technology, cybersecurity, information systems, or a related field. Candidates must also have hands-on experience as a teacher, trainer, or developer in the following areas:

C# programming

Object Oriented Programming

Applications development lifecycle management

Application development frameworks

Integrated development environments (i.e. visual studio)

SQL database app development and integration

ASP.NET Foundation or Core

Deploying apps to Azure

Preferred candidates are those who can demonstrate experience in one or more of the following areas:

Mobile app development and deployment

Undergraduate teaching of beginner and intermediate programming and software development

Agile, Scrum, or Kanban

DevSecOps or OWASP

Current industry-recognized certifications in any of these technology areas are also a plus!
