Job Description

The Department of Physiology and Biophysics and the new chair of the department seeks a Senior Research Scientist to be responsible for performing neurobehavioral, biochemical and cell biology experiments. You will be responsible for supporting the research mission of the University at Buffalo by being a publishing scholar in peer review publications and contributing as a PI and or co-investigator in grant applications. You will organize and participate in departmental, national and international conferences.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness.
