Job Description

Plumber installs, repairs and maintains plumbing systems and fixtures to keep the University in a safe and sanitary condition; provides clean and safe drinking water; maintains and installs drain, sewer and storm lines. This position reads blueprints, drawings and specification to determine the layout of plumbing systems, water supply networks and waste and drainage systems. The Plumber will then plan, install and service plumbing systems, fixtures, piping equipment and control according to state and local codes to ensure the safety and well being of all concerned. These piping systems may be used to transport water, waste or hot liquids. Performs other assigned duties.
