**Job Description**

The Hospital for Large Animals provides high-quality medical/surgical care to inpatient, outpatient and critical/emergency large animal patients. In addition to providing patient care, employees are required to teach and support the veterinary students and visiting veterinary technician interns throughout their rotation in the Hospital for Large Animals. The technician in this role will have a high degree of responsibility and must be able to react appropriately under stressful and sometimes unpredictable situations.

This candidate is responsible for providing high quality nursing care and treatment for all Internal Medicine, General Diagnostics and Surgery Service, and Sports Medicine Service patients as directed by clinicians/residents or supervising technicians. As a team member, this candidate will work to carry out the daily patient management plans for inpatient/outpatient cases, which includes inpatient care and treatment, providing technical support for clinicians and students, providing guidance and instruction to veterinary students and new employees, and assisting with routine and emergency admissions and discharges.
