responsible for query development, data extract and summarization routines, for preparation of all associated documentation, and for facilitating end-user testing, validation and training throughout the BI development lifecycle. This position will also have duties related to mentoring student employees participating in the team.

Roles and Responsibilities:

1. Report/Visualization Development, Expertise and Training: In collaboration with the BI team this position is responsible for developing a deep understanding of the Reporting tools available in the UVU Landscape and facilitating the implementation of UVU BI Standards for security, industry best practices for design and user-experience. Responsible for tier 2/3 support on front-end reporting / development tools, best practices and user training
2. Development in UVU BI Landscape: As a member of the BI Team, this individual will be responsible for providing data-layer to front-end delivery. Success in this role will require the candidate to be familiar with SQL development necessary to gather and structure information in the database to ensure consistent, reproducible, scalable deliver through the Front-end reporting tools (Tableau, Argos, Cognos, Power BI, SSRS, etc.). This person will also be expected to participate in the creation, deployment and realization of UVU's next-generation BI Infrastructure (on-prem/cloud/hybrid)
3. Personal and Professional Development: develop and provide subject matter expertise to the BI Team on existing tools, vendor roadmaps and existing unmet needs within the UVU reporting landscape - Maintains professional and technical knowledge by participating in training and educational opportunities. Learning is focused on things needed to complete tasks and solve current problems. Evaluate & Recommend reporting applications for the BI Teams evaluation of future tools and reporting needs.
4. Requirements gathering, customer verification, delivery, request validation: Ensure data definitions accommodate customer expectations and relevant documentation around report definitions, customer use-case, and definitions are cataloged appropriate and available in the UVU BI Data Dictionary and Data Catalog
5. Perform other job related duties as assigned.

UVU offers an excellent benefits package which includes a generous leave policy, 12 paid holidays, affordable medical and dental insurance options, life and AD&D insurance, tuition waiver (undergraduate resident) for employee and dependents and substantial employer contribution to a retirement plan.
