In keeping with the President's commitment to Tuskegee University seeking "Excellence in Every Way," the ideal Research Farm Assistant will possess the willingness to use their expertise to assist in the university's efforts to be a sustainable academic organization committed to excellence.

Essential Duties and Responsibilities

Assist researchers and scientists with field crops research (ie: field preparation, planting, cultivating, application of pesticides and fertilizer, harvesting, grading, weighting and recording data)

Assist in the general care and maintenance of the research farm

Assist researchers with greenhouse experiments, plant care, and general management of the greenhouse and head house

Provide on farm and field assistance to limited farmers in the counties

Participate in CAENS and other Departmental activities

Perform minor repairs of farm equipment and implements

Perform other related duties as assigned

Qualifications

High School Diploma or equivalent

Additional Desirable Qualifications

Work experience as related to plants and the care of plants

Ability to work effectively as a team member with peers, researchers, scientists and students

Salary

Commensurate with education, training and experience

**The statements contained in this job announcement reflect general details as necessary to describe the principal functions of this job, the level of knowledge and skill typically required and the scope of responsibility. It should not be considered an all-inclusive listing of work requirements. **

Each applicant, including all current/existing employees, must complete and submit a Tuskegee University employment application, resume/CV, a list of (3) to (5) references (with detailed contact information) and copies of unofficial transcripts (official transcript(s) will be required upon hire).
