web applications on the university's website. Contributes to technical support for web-based software such as Drupal and WordPress. The ideal candidate has a passion for web development, is a self-starter and works well with others.

JOB DESCRIPTION

Responsibilities:

- * Maintains and debugs existing web applications installed on WPI's web servers.
- * Designs, constructs, implements and tests custom applications or modules for the WPI website.
- * Maintains CGI scripts and software applications installed on WPI's web servers.
- * Designs, constructs, implements, and tests custom applications on the WPI website.
- * Acts as primary support for various web applications, including but not limited to Drupal, WordPress and Web-based Interface tools.
- * Contributes to technical support for various web applications, including but not limited to Drupal, WordPress and Web-based Interface tools.
- * Reviews code developed by external sources to ensure it is secure and follows standards (for example: WordPress plugins and themes).
- * Coordinates with the Helpdesk to address web application and service issues.
- * Other duties as assigned.

Requirements:

- * Bachelor's degree in computer science or related area with 3 years professional programming experience, or equivalent of 5 years professional programming experience.
- * Demonstrated backend web development experience with PHP, Python, and database systems such as MySQL.
- * Demonstrated frontend web development experience with HTML, CSS, JavaScript and JSON.
- * Experience with web content management systems such as Drupal or WordPress.
- * Experience using and programming on UNIX platforms and working with Apache or Nginx web servers.
- * Knowledge of web site design best practices, including web standards, accessibility, and secure coding practices.
- * Experience using code versioning tools (e.g. Git, Subversion).
- * Must have ability to communicate and work with people of all levels of technical ability. Excellent customer service skills are required.
- * Must collaborate effectively across technical and functional disciplines.
- * Demonstrated ability to learn new technologies.
