questions and logging questions in study database.

- Reviewing completion of questionnaires and paperwork.
- Assist with preparation of mailings to study participants and assembling at-home collection kits.
- Receiving and unpacking study kits from participants, working with existing study team members to track participant sample returns.
- Follow IRB approved study protocols, manuals of operation, policies and procedures.
- Perform data entry, develop and generate reports using Microsoft Access.
- Attend regularly scheduled meetings with Principal investigator, co-investigators, and other management staff.
- Assist with writing and submission of manuscripts related to study findings and new research grant applications.
- Maintain highest level of professionalism and perform any other duties necessary for the successful completion of the research study.

The Department of Epidemiology and Environmental Health (EEH) has a long and distinguished history in research and student education. Part of the School of Public Health and Health Professions (SPHHP), the department offers PhD, MS and MPH degrees in epidemiology, environmental health and health services administration. Faculty in EEH engage in collaborative and transdisciplinary research with faculty across the university, as well as regionally, nationally and internationally. Department research includes cancer, cardiovascular disease, women's health, nutrition, physical activity, infectious disease, environmental epidemiology, global health and health services research. EEH is located on the South Campus of University at Buffalo. For more information visit:

<https://publichealth.buffalo.edu/epidemiology-and-environmental-health.html>

SPHHP is the home to five departments: biostatistics, community health and health behavior, epidemiology and environmental health, exercise and nutrition sciences, and rehabilitation science. Faculty and students engage in research and community activities designed to improve the health of populations, communities and individuals.
