Job Description	

Position Summary

The [Center for the Arts](#) in the [College of Arts and Sciences](#) is seeking a **Technical Director**.

The Technical Director plays a crucial role in providing production oversight for the Center's five public venues, collaborating with a diverse range of stakeholders for the seamless execution of high-quality performances such as music acts, comedy shows, theatrical productions, dance concerts, as well as speakers, ceremonies, and special events.

As a key collaborator within the production team, the role involves leading and supervising a team of six professional staff members, interacting with national touring groups, university departments including Theatre and Dance, and community entities. Duties include facilitating professional events, enforcing university and industry policies and procedures, overseeing theatrical venues' systems and

equipment, ensuring venue safety and compliance, and providing technical oversight and coordination for performances and events.

As the Technical Director you will:

- Supervise event technical arrangements and coordinate the production of performances and events.
- Establish and enforce safety procedures and guidelines for venues, overseeing safety checks and emergency protocols, as well as facilitating emergency and evacuation procedures.
- Directly supervise, manage and schedule production staff members, including the staff Production Manager, Head Electricians, Head Carpenter, Audio Engineer, and Audio-Visual Technician. This includes the assignment of roles, duties, and schedules in collaboration with the Production Manager's advance.
- Maintain, and enhance theatrical venues and technology for seamless event operations.
- Lead planning, scheduling and execution of technical equipment maintenance, repair, improvement projects, and related budget management; work on projects pertaining to the operation, maintenance, and upgrade of CFA theatrical technical systems and supervise inventories.
- Coordinate and allocate technical resources efficiently, including equipment, personnel, and facilities, to support diverse performances, events, and academic learning outcomes.
- Production Manage events, coordinating the technical and production aspects during load-ins, load-outs, rehearsals, and performances and ensure that emergency policies and procedures are followed.
