Job Description

This is a first-line position in which the candidate should expect to spend a majority of their time in the field assisting a Trades Generalist in responding to daily service requests (work orders) and scheduled preventative maintenance in support of the University's energy management equipment. This equipment consist of the building automation direct digital controllers, air handlers, VAV boxes, fin radiation, fan coils, exhaust fans, heat pumps, humidifiers, heat recovery units, and other heating, cooling and ventilation systems on campus.

Key responsibilities include:

- Respond to daily service requests (work orders) and scheduled preventative maintenance
- Assist journey level trades to diagnose, troubleshoot and service building automation systems (BAS) and electrical/mechanical equipment of all types found on campus. These are mechanical, electrical and computerized equipment used to perform energy management and climate control.
