Job Description

The State University of New York at Buffalo is seeking a highly motivated and experienced **Senior Clinical Research Coordinator** to join our Dental Clinical Research Center for our [School of Dental Medicine](#). The ideal candidate will have a strong background in dental research methodologies, clinical trial management, and project coordination. The Senior Research Coordinator will play a key role in overseeing and coordinating various research projects within our center, ensuring adherence to regulatory requirements, timelines, and quality standards.

Responsibilities will include:

- Project management: coordinate multiple dental research projects simultaneously, from initiation to completion, ensuring all activities are executed efficiently and within timelines.
- Protocol development: assist in the development of research protocols, study designs, and methodologies, in collaboration with principal investigators and other team members.

- Regulatory compliance: ensure compliance with all regulatory requirements, including Institutional Review Board (IRB) approvals, FDA regulations, and other applicable guidelines.
- Participant recruitment and enrollment: oversee participant recruitment efforts, including outreach strategies, screening, and enrollment procedures.
- Data collection and management: coordinate data collection efforts, including the development of data collection tools, training of research staff, and implementation of quality control measures to ensure data integrity.
- Budget and resource management: assist in budget planning and management for research projects, including procurement of necessary resources, equipment, and supplies.
- Training and supervision: provide training, guidance, and supervision to research staff, ensuring adherence to standard operating procedures and best practices.
- Quality assurance: implement quality assurance measures to monitor and evaluate research activities.
- Documentation and reporting: maintain accurate and detailed documentation of research activities, including study progress reports, regulatory submissions, and other required documentation.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options.
