Job Description

Are you ready to take your engineering skills to the heart of campus utilities? Look no further! The University at Buffalo is seeking a **Plant Utilities Engineer 1 (PUE1)** to play a pivotal role in our central plant operations. As a PUE1, you'll be stationed at the bustling UB campuses, ensuring the smooth functioning of critical utilities systems.

Your expertise will be put to the test as you:

- Operate and maintain essential equipment
- Perform system maintenance and repairs
- Demonstrate chilled systems expertise
- Conduct water analyses
- Share knowledge and participate in training related to utility plant operations and engineering

Plant Utilities Engineer 1 (NY HELPS)

Whether you find yourself at the Chilled Water Plant, the Heating Plant, or the decentralized utilities production plants in our downtown campus, your impact will be felt across the university.

This is part of the **New York Hiring for Emergency Limited Placement Statewide (NY HELPS)** program. The nature and variety of the activities depend on the area in which the position is assigned.

Additional Information:

1. Learn about our [benefits](#), where we prioritize your well-being and success to enhance every aspect of your life.
2. Learn more about what it looks like to be a part of the [University at Buffalo community](#).
3. Begin your career with us through the [NY HELPS](#) program.

University at Buffalo is an affirmative action/equal opportunity employer and, in keeping with our commitment, welcomes all to apply including veterans and individuals with disabilities.
