Job Description

This candidate should expect to perform routine inspections, preventative maintenance, routine installations, and repair tasks on a combination of mechanical, electrical, plumbing and motor equipment associated with the heating and cooling equipment on campus. The Incumbents may also perform journey-level activities, under supervision, or after receiving detailed instructions, to learn and perfect their skills.

Key responsibilities include:

- Perform routine inspections of boilers, chillers, cooling towers, pumps and other HVAC components and systems for correct operation.
- Take readings on meters and gauges to ensure proper operation.
- Check air compressors, blow down and add oil as needed.
- Perform routine preventative maintenance of boilers, chillers, cooling towers, pumps, strainers

and other HVAC components and systems.

- Assist in the maintenance and repair of chillers, boilers, pumps, valves, and other HVAC plumbing, electrical and mechanical equipment.
- Respond to calls concerning mechanical, electrical or plumbing breakdowns to troubleshoot the problem, make necessary repairs or advise the appropriate authority regarding the problem.
- Operate and test water softeners and boiler water for correct limits.
