**Job Description**

The [Institute for Lasers Photonics and Biophotonics](#) at the University at Buffalo is hiring a Research Support Specialist. The primary objectives involve researching Naloxone drug delivery. The focus includes optimizing delivery materials, developing a delivery module, and conducting animal model tests before integrating it into the sensor unit.

The Research Support Specialist will undergo training in diverse characterization techniques such as spectroscopy, microscopy, and device characterization. This offers an opportunity to develop skills in data analysis, scientific communication, and collaboration, complemented by valuable laboratory experience. Participation in seminars, workshops, and educational activities is expected to enhance understanding in the field, providing a well-rounded experience for the Research Support Specialist

**Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including
