Under direction from assigned supervisory and/or management staff, performs skilled work in the installation, servicing, repair, and maintenance of refrigeration, heating, ventilation and air conditioning equipment and systems; makes a variety of independent decisions related to HVAC systems; coordinates assigned projects related to HVAC systems and serves as the point person for contractors during the evening hours; operates and maintains a wide variety of hand and power tools and equipment; performs a variety of special projects; and assists in performing other skilled maintenance duties as assigned. May receive functional supervision, technical training and work direction from a Plant Engineer.

DISTINGUISHING CHARACTERISTICS

This is the advanced journey level class in the HVAC Technician series. Positions at this level are distinguished from other classes within the series by the level of responsibility assumed and the complexity of duties assigned including making independent decisions related to the HVAC system, dealing with contractors, and independently performing a variety of special projects. Employees in this classification work part of a shift alone without any direct supervision from higher level staff. Employees at this level are required to be fully trained in all procedures related to assigned area of responsibility.

REPRESENTATIVE DUTIES

The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address business needs and changing business practices.

1. Inspect, test, troubleshoot, repair, maintain and service all types of heating, refrigeration, ventilation and air conditioning equipment and systems; ensure proper functioning; repair leaks and malfunctioning dampers in systems; make independent decisions related to the HVAC system when working alone during evening hours.
2. Install, replace, repair and adjust valves, thermostats, fans, pressure and air regulators, filters, belts, fuses, controls, gauges, air compressors, blowers, dryers and pumps; test joints and insulate pipes of refrigeration and air conditioning systems; clean, lubricate and adjust systems as required.
3. Test water used in air conditioning systems for proper levels of chemical treatment; maintain appropriate levels to maximize corrosion protection in cooling towers and water supply.

4. Fabricate, repair and install duct work and chassis covers; cut threads and assemble pipe and tubing to other components of air conditioning, heating and refrigeration equipment.
5. Perform inspections of powerhouses throughout the assigned campus; monitor operation of mechanical systems that supply air conditioning to buildings.
6. Perform scheduled preventative maintenance on all air conditioning and related equipment.
7. As assigned, assists in operating the Energy Management System in order to control time schedule and temperature of conditioned areas on campus.
8. As assigned, assist outside contractors; provide information within the area of assignment; provide hands on assistance as necessary; inspect completed work and report punch-list items to supervisor; ensure problems are resolved.
9. Coordinate assigned projects related to HVAC systems and serve as the point person for contractors during evening hours.
10. Perform a variety of special projects as assigned during evening hours.
11. Order, stock and maintain equipment and supplies.
12. Provide assistance on various other maintenance and repair projects as assigned.
13. Perform related duties as required.

QUALIFICATIONS

The following generally describes the knowledge and ability required to enter the job and/or be learned within a short period of time in order to successfully perform the assigned duties.

Knowledge of:

Advanced methods, practices, equipment and tools used in the repair and maintenance of air conditioning, heating and ventilation systems.

Advanced methods and techniques of troubleshooting and diagnosing of HVAC malfunctions. HVAC system design, equipment capabilities and requirements.

Electronic, pneumatic and mechanical principles as applied to the maintenance and repair of heating, ventilation and air conditioning systems.

Operational characteristics of energy management systems and related components.

Proper methods, materials, tools, terminology and equipment used in the HVAC trades.

Methods and techniques of preparing and interpreting drawings, diagrams, schematics and blueprints.

Time, material, and labor cost estimating principles and practices used in maintenance and repair

Attendance Requirement:

All SOCCCD employees are required to report to work on a regular and consistent basis, as scheduled, to assigned job.

Campus Crime and Safety Awareness:

Information regarding campus crime and safety awareness can be found at www.ivc.edu or www.saddleback.edu. Paper copies are available in the Human Resources office upon request.

Diversity, Equity, Inclusion and Equal Employment Opportunity:

The SOCCCD is committed to creating an academic and work environment that fosters diversity, equity, and inclusion (DEI) and equal employment opportunity (EEO) for all, and ensures that students, faculty, staff, and managers of all backgrounds feel welcome, included, supported, and safe. Our culture of belonging, openness, and inclusion, makes the SOCCCD a unique and special place for individuals of all backgrounds.

The SOCCCD is looking for equity and inclusion-minded applicants who represent the full diversity of California and who demonstrate a sensitivity to the understanding of diverse academic, socioeconomic, cultural, disability, gender identity, sexual orientation, and ethnic backgrounds present within our community. When you join the SOCCCD, you can expect to be part of an exciting, thriving, equity-focused, and inclusive community that approaches higher education with the lens of social justice and collaboration among students, faculty, staff, managers, and community partners. In deciding whether to apply for a position at the SOCCCD, you are strongly encouraged to consider whether your values align with the SOCCCD's mission and goals for DEI and EEO.
