<b>Job Description</b>	

### Position Summary

The [College of Arts and Sciences](#) at the University at Buffalo is seeking an **Instructional Support Associate** that will work as a Machinist in the College's Machine Shop. In this role you will work collaboratively with two other technicians to assist in the design and creation of research-oriented machined parts, conforming to Arts & Sciences faculty requests.

### In this role you will:

- Consult with individual faculty members in the design and/or modification of the prototype device and aiding in the preparation of a schematic drawing in the pre-design stage.

- Collaborate with faculty members, (or with graduate students, postdoctoral research associates or departmental staff) to provide preliminary designs and estimates of labor and material costs.
- Prepare appropriate schematic drawings during the pre-design phase.
- Create innovative parts, devices and equipment in conformance with CAS faculty requests in the undergraduate/graduate teaching laboratories and the research laboratories of the College of Arts and Sciences.

### **Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit – all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
