Contract type: Temporary

[Apply now](#)

The End User Computing (EUC) team is a function of the Communications and Information Technology (CIT) division. The team provides first level support to SIT staff and students for all CIT activities and full support to all EUC activities.

The incumbent will provide administrative and technical support to the Academic IT requirement which includes the maintenance of the Computer Labs and software. He/she will also be required to provide assistance in managing the IT helpdesk and on-site Engineers to deliver excellent technical/non-technical support with outstanding customer service, satisfaction, and timeliness. The incumbent will also need to manage SIT Telecommunications system.

Key Responsibilities:

- To provide administrative and technical support for Windows, Mac, Android, IOS, and software.
- To be responsible and facilitate IT equipment, services, and software implementations.
- To develop and maintain comprehensive documentations, on operations, installation, deployment, training, and inventory checklists.
- To manage hardware inventory and software licensing allocations, including software media, hardware, IT accessories and supplies.
- To work with IT teams and other division staff to coordinate projects, manage capacity and optimize IT equipment performance, reliability, and efficiency.
- To oversee timely delivery of quality technical support service to staff and students.
- To communicate effectively with staff and students to assess support needs, assist in the identification of technology needs, and respond to customer service concerns.
- To develop and maintain procedures related to monitoring, tracking, and coordination of helpdesk and end user computing support activities.
- To provide assistance to SIT Staff with their EUC equipment as according to the SLA.
- To assist with the purchase (tender, ITQ, RFP, etc.) of software, hardware, accessories, and supplies.
- To undertake projects to implement CIT/EUC related projects.
