Job Description	

Position Summary

The **Assistant Director, Cyber Security Program Manager** will be responsible for significant aspects of the security program, which includes complex logistics, security awareness efforts and documentation requirements. The focus of this position is to ensure that the information/cyber security program is running in a consistent, professional and progressive manner, which requires much documentation, logistical coordination and follow-up.

In this position you will:

- Develop and implement a comprehensive cybersecurity program aligned with organizational goals.

- Ensure the cybersecurity program complies with relevant laws, regulations, and standards (e.g., GLBA, HIPAA, NIST).
- Support risk management efforts and document identified gaps, remediation plans and acceptance criteria.
- Manage the lifecycle of cybersecurity projects from initiation through execution and closure.
- Work with cross-functional teams including IT, legal, compliance, and operations to implement security initiatives.
- Ensure proper deployment and management of cybersecurity tools and technologies (e.g., firewalls, IDS/IPS, SIEM systems).
