Job Description	

Position Summary

The State University of New York (SUNY), Office of University-wide Procurement seeks a **Global System Administrator** for its eProcurement Solution supporting a multi-campus Procurement Optimization project. This role is crucial in ensuring the smooth operation of the source-to-pay system and optimizing its functionality to deliver savings, efficiencies and increased compliance through strategic sourcing opportunities, more efficient and standardized processes, and an online, optimized shopping experience. This hybrid-remote position will be based at the University at Buffalo, or another SUNY campus.

Under the guidance of project leadership, the **Global System Administrator** will be the central point of contact for liaison to vendors, participating campuses, and system stakeholders with the following

responsibilities:

- Liaison between campuses and the system provider to communicate requests for system changes and enhancements.
- Participate in system User Group activities (national conference) and network with other similar institutions to share leading practices.
- Participate in SUNY specific meetings with the system provider related to technical integrations, enhancements, and updates.
- Lead testing and implementation of system enhancement and upgrades.
- Serve as central point of contact for system trouble shooting and communicate issues and issue resolution to campus stakeholders.
- Lead projects in support of SUNY and campus optimization initiatives.
- Assist and update the SUNY digital library for eProcurement training resources.
- Identify training areas and work with campuses to expand training opportunities to include recorded sessions, addressing targeted areas.
- Promote collaboration, compliance, and standardization of procurement activities.
