- Oversee implementation of research studies, generation of qualitative and quantitative data and data collection forms and surveys.
- Manage the day-to-day operations of the assigned project including development and implementation of research procedures and systems.
- Assist Principal Investigator with administration of clinical trial protocols, including obtaining informed consents and screening subjects, maintaining research records and research subject records, managing correspondence, researching medical records, recording data, and attending training sessions.
- Work independently and with various departments throughout UB and Kaleida.
- Support the management of the Cardiology Clinical Research Team.

### **Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
