Job Description	

Seeking a candidate to serve as a **Research Technician II** in the [Department of Oral Biology](#). Projects in Dr. Visser's research group focus on microbial pathogenesis and interactions of oral bacteria with host cells. The selected candidate will carry out experiments as required. Duties will also include being responsible for day-to-day operations of the laboratory; such as routine maintenance, organizing and ordering supplies and record keeping. Excellent organizational skills, ability to work well with others, and willingness to learn new lab techniques are key. Simultaneous performance of more than one procedure may be required.

Methods used may include:

- bacterial culture
- molecular biology techniques (such as PCR, cloning, RNA and DNA extraction)
- microscopy imaging
