Key responsibilities:

- Work closely with faculty to transform both in-class and online courses to be interactive and engaging for students, and to provide guidance in the development of new courses and programs.
- Supporting adjunct and new faculty in developing their teaching skills. Assist faculty in integration of other new instructional methods, support in-class observations and provide guidance on ways to improve course delivery and improve teaching outcomes.
- Collaborate with faculty on all aspects of course design including identification of learning goals and objectives, curricular alignment, identifying teaching strategies, creation of learning activities, and assessment of student learning.
- Collaborate with content experts, program administrators, IT support staff, subject librarians, graphics specialists, multimedia developers, and other instructional designers for the consistent delivery of exemplary courses.
- Provide ways to share with the faculty with the necessary tools and guidance in order to adopt new technology.
- Participate in the development and delivery of training and orientation programs for students and faculty when appropriate.
- Cross-training with other team members.
-

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit – all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization. Learn more about our [benefit packages](#).

About the School:

UB's School of Public Health and Health Professions offers programs at every degree level and is the home to five departments; biostatistics, community health and health behavior, epidemiology and environmental health, exercise and nutrition sciences, and rehabilitation science. It is one of only a few schools across the country that includes health-related professions as an integral component of the public health educational and research system. Faculty and students engage in research and community activities designed to improve the health of populations, communities, and individuals. The SPHHP is located on the South Campus of University at Buffalo. For more information about the school, visit the [school](#) website here.
