Employment Opportunity

We need **YOU!** Cabrillo College is looking for staff to provide quality programs and services for a diverse student population promoting ever-evolving needs as our students grow toward their individual aspirational goals. Cabrillo is an Hispanic Serving Institution (HSI) with a special focus on enhancing the Latinx student experience. Come join our team, valuing high-level and innovative instruction, support services, a welcoming environment, and helping to change the world one student at a time!

This **full-time, 12-months per year Systems / Network Support Specialist** position performs varied technical Information Technology (IT) support functions related to client-facing technologies including desktop/laptop hardware, software, printers, peripheral equipment, server/network connectivity, mobile devices and applications; installs, configures, diagnoses and troubleshoots multi-platform, networked client devices and peripheral equipment; participates in enterprise-wide software deployments; provides end-user training; and performs related duties as assigned.

The **ideal** candidate will share Cabrillo's commitment to educating its racially and socioeconomically diverse student population. Cabrillo College serves approximately 11,400 students per term. In the Fall of 2021, 58% of Cabrillo students are members of minoritized populations, identifying themselves as LatinX (48%), Multi Ethnic (5%), Asian (2%), Black Non-Hispanic (1%), Filipino (1%), American Indian/Alaskan Native (<1%) and Pacific Islander (<1%). In 2006, Cabrillo College was designated a Hispanic-Serving Institution, reflecting the great responsibility that the College has to the educational attainment and economic well-being of the surrounding community.

As a classified staff member at Cabrillo College, you will join a vibrant community of professionals and educators working together to provide a positive educational environment where our students experience diverse academic and cultural perspectives.

Examples of Duties

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this class.

- Installs, configures, troubleshoots, upgrades, repairs and maintains desktop computers, printers, scanners, readers and other peripheral equipment and runs tests to ensure proper equipment

operations; performs local/wide area and internet network installations; provides a wide range of support to users of personal computers, mobile devices, audio-video and telecommunication equipment; configures a wide range of software; recommends hardware configurations for end users; works with end users to define software solutions; documents all hardware and software configurations; provides end user training.

- Centrally configures and deploys end user devices using a variety of enterprise-level management suites including mobile device management and directory services platforms; builds and develops scripts to deploy custom images for lab areas; plans, schedules, coordinates and completes computer "lab" replacements; installs, tests and configures applications and new software functionalities for applicable servers and platforms.
- Maintains and configures assigned network servers including those involving application licensing, application hosting, application distribution, end-point management and printing services; creates and distributes configured application packages and installers for remote and self-service deployment to a variety of platforms including Windows, MacOS and IOS.
- Monitors, prioritizes, responds to and resolves technical support requests for hardware/software and connectivity issues received via the IT services management platform ticketing system or by in-person requests, phone calls/messages or emails; troubleshoots and diagnoses problems and errors; provides users with instructions in areas of network login, logout, passwords, email, drive mappings, desktop icon management and instructional applications; provides follow-up support until issues are resolved; works with other technical staff, vendors and manager to find solutions for reducing or eliminating issues.
- Performs on-site repair of desktop computers and peripherals; contacts manufacturers' technical support for in-depth triage of computer issues or for shipment of hardware components and/or replacements.
- Works collaboratively with manager and other technical staff to identify and implement standards for District-wide and campus-specific technology support such as average response time, mean time to repair, end-user satisfaction and problem resolution rate/time; develops best practices and fosters continuous improvement in customer support services; reviews help desk statistics and surveys, analyzes trends, identifies chronic problems and performs root-cause analyses.
- Maintains detailed inventory records of hardware, software and computer-related equipment using asset tracking and management systems to make informed decisions about technology purchases; disposes of obsolete assets following established procedures.
- Assists with forecasting cycle replacements or upgrading of desktop, laptop, printer and related technology assets; maintains proper hardware replacement planning information.
- Keeps technical skills current to meet continuing work responsibilities.
- Participates and may function as a lead on client-facing technology-related projects.
