DISTINGUISHING CHARACTERISTICS

Positions in the Lab Technician class are distinguished from the Senior Lab Technician by the level of responsibility assumed. In comparison to the Senior Lab Technician, positions at this level are assigned to less complex labs, have less exposure to hazardous or otherwise dangerous materials, and limited involvement in budget activities and ordering of supplies and equipment. Employees at this level are required to be fully trained in all procedures related to assigned area of responsibility and are fully aware of the operating procedures and policies of the work unit.

REPRESENTATIVE DUTIES

The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address business needs and changing business practices.

1. Assist instructors in developing instructional materials; prepare study sheets, visual instructional aides, sample exercises and exams, and laboratory experiments; may assist in grading exams and maintaining related records.

2. Prepare for laboratory demonstrations; set up laboratory apparatus; assist students in the use of a variety of laboratory equipment and instruments; ensure student compliance with laboratory policies, procedures and safety precautions; demonstrate proper care and cleaning procedures for laboratory equipment.

3. Provide assistance to students on a variety of laboratory and course related matters; review student work in progress and assist in resolving problems.

4. Maintain a clean and safe learning environment; clean floors, table tops, desks and furniture; perform routine and minor repairs on laboratory equipment; maintain, clean and test equipment related to biology, chemistry and other experiments and studies.

5. Make solutions and mixtures of chemicals for chemistry labs; dispense and label chemicals in vials and test tubes.

6. Monitor and dispose of chemicals and chemical waste; identify, collect and store unwanted and expired chemicals according to established safety guidelines and procedures.

7. Participate in the ordering and maintenance of supplies, materials and equipment; store, discard and rotate materials according to standard procedures; receive, assemble and test new
