screen.

- Collect data from research participants and perform data entry duties.
- Be responsible for biometric data being delivered to the Division.
- Schedule clinic appointments and ancillary tests and maintain appropriate scheduling information.
- As part of and in collaboration with the study program staff team, assist in recruitment efforts including completing recruitment calls, conducting eligibility screening, and performing data collection during patient participant initial visit and on-site follow-up visits.
- Act as liaison between community sites and the Division to recruit patients for participation and between study participants and the PI regarding consent forms.
- Compile and maintain research files and related records as part of the program staff team.
- Assist health educators in providing health education at community sites.
- Ensure compliance/adherence to the Institutional Review Board (IRB) and UB's policies, requirements, legal contracts, and HIPAA regulations.
- Demonstrates and provides excellent customer service.
- All other clinical and research related duties as needed.

### **Knowledge - Skills - Abilities**

Knowledge of biology, clinical judgment, medicine, cultural awareness, and consulting. Medical documentation, interpersonal, practice-based learning and improvement, empathy, and decision-making skills.

**Work Hours:** Full-time role with expectations for coverage during core business hours and flexibility required as necessary to accommodate business needs.

### **Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness.
