Student Records Reporting and Querying:

- Develop regular reports and queries for office, unit, and university use, both operationally and strategically, and provide data analysis as requested.
- Work with Office of the Registrar staff to develop reports and queries that will be used to support new and existing processes and projects such as ensuring that student records are maintained correctly, students are registered, transfer credits are awarded, and degree requirements are audited.
- Identify, create and maintain data integrity queries to ensure data completeness and accuracy for system processes.
- Provide data analysis as requested.
- Inform the office's approach to providing data and information to the campus.
- Work with the Office of Institutional Analysis and other reporting stakeholders on campus to consult on university reporting processes and to help develop reporting views as necessary.

HUB Security Requests:

- Responsible for the HUB and related systems' security process including ensuring completion of the Handling Data Safely course and provisioning accounts with the proper level of access for the user's role.

We invite individuals to apply whose perspectives and experiences will enrich and strengthen our organization. The Registrar's office serves a diverse constituency of patrons, and our employees, services and policies strive to honor and reflect this diversity. We encourage candidates who thrive in a welcoming multicultural environment to apply.
