Departmental Overview

Facilities Services works to maintain a campus built environment that is conducive to teaching, learning, and research. The department strives to continuously improve the campus in partnership with all members of the campus community.

The GIS, Mapping and Drawing Group within Facilities Services supports the department by providing accurate drawings, GIS and spatial data information. This position will be part of the unit that develops and maintains a functional and accessible FS spatial database, drawing archives, and mapping data.

The Drawing Analyst applies skills as an experienced AutoCAD professional with a full understanding of industry best practices, policies and procedures to resolve a wide range of issues that are moderately complex in scope. Demonstrates good judgment in selecting methods and techniques for obtaining solutions. Has a general understanding of geographic information systems (GIS) and relational databases. Under general direction, performs professional-level work related to the development and maintenance of building floor plans, project record drawings, and utility drawings that serve the needs of Facilities Services.

Application Review Date

The First Review Date for this job is: February 7, 2025

Responsibilities

- Building floor plans: incorporates and manages updates, contributes to standardization, collaborates with campus partners, and leads site visits, new scans, and other validation work needed to maintain accurate floor plans.
