- Provide instructional support for course design and delivery.
- Develop pedagogical training resources
- Design and deliver webinars related to effective pedagogy.
- Develop content for and facilitate regular workshops, webinars, and events, such as TA Orientation, New Faculty Academy Teaching Track, etc.
- Consult with instructors on the implementation of the learning management system to support course goals and meet student needs.

We invite individuals to apply whose perspectives and experiences will enrich and strengthen our organization. The Office of Curriculum, Assessment, and Teaching Transformation serves an increasingly diverse constituency of faculty and staff, and our employees, services and policies strive to honor and reflect this diversity. We encourage candidates who thrive in a welcoming multicultural environment to apply.

About the Department

The [Office of Curriculum, Assessment, and Teaching Transformation \(CATT\)](#) at the University at Buffalo promotes educational excellence through support of instructional and learning environments design; assessment of program and teaching effectiveness; and dissemination of evidence-based instructional strategies. Each office within the department supports the mission of educational excellence. Educational Effectiveness & Learning Analytics (EELA) supports program improvements through the program assessment and review process and through student evaluations of teaching. The Teaching Transformation team supports the effective design of courses and curricula through evidence-based approaches. The office of Learning Environments and Spaces works to establish in-person and virtual learning environments that promote effective teaching and learning.
