Posting Detail Information

Position Summary

Under the direction of a research scientist, in the largest comprehensive research foundation in the country, you will carry out complex analytical tasks that require the theoretical and practical application of a body of highly specialized knowledge.

Assigned tasks may include:

- Operate and make decisions within defined test or analytical protocols
- Carry out assignments that incorporate highly specialized training in a specific specialty and in the operation of applicable equipment
- Conduct test procedures
- Use specialized methods for data collation and interpretation

This is a pooled posting, positions are filled on an as needed basis.

About The University at Buffalo

The University at Buffalo (UB) is one of America's leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact. UB is a premier, research-intensive public university dedicated to academic excellence. Our research, creative activity and people positively impact the world. Like the city we call home, UB is distinguished by a culture of resilient optimism, resourceful thinking and pragmatic dreaming that enables us to reach others every day. Visit our website to learn more about the [University at Buffalo](https://www.buffalo.edu).

As an Equal Opportunity / Affirmative Action employer, the Research Foundation will not discriminate in its employment practices due to an applicant's race, color, religion, sex, sexual orientation, gender identity, national origin and veteran or disability status

Minimum Qualifications

Bachelors degree in a specific specialty, or its equivalent, is required. Requires the use of specialized techniques in the field of endeavor to make observations, collect data, use survey instruments and techniques, and make related calculations using mathematical formulae.
