Position Overview:

Definition:

Under general supervision, provides instructional support services for faculty and students of the Earth Sciences program; prepares and sets up laboratory exercises, demonstrations, instructional materials, creates displays, and participates in geological field excursions; assists students and faculty in the use and operation of equipment and materials.

Supervision Received and Exercised:

Receives general supervision from the Dean, Natural Sciences. Exercises no direct supervision of staff. Provides technical and functional direction and training to student workers.

Class Characteristics:

This is a journey-level classification responsible for conducting a variety of instructional support activities to ensure student learning. Incumbents perform the full range of duties as assigned, working independently, and exercising judgment and initiative. Incumbents at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of assigned area of responsibility. This classification is distinguished from other laboratory technicians by having subject matter expertise in Earth Sciences.

Examples of Essential Functions(Illustrative Only):

1. Prepares and sets up laboratory exercises, demonstrations, and instructional materials; monitors laboratory environment; organizes, arranges, stocks, and distributes materials, equipment, and supplies.
2. Provides instructional support services for the Earth Sciences program; assists in instructional demonstrations of laboratory procedures and techniques; explains related principles, practices, procedures, methods, materials, terminology, tools, and equipment.
3. Installs and maintains instructional software and ensures computers and related equipment function properly.
4. Ensures proper use of laboratory equipment by monitoring activities according to established rules and policies.
5. Researches, collects and maintains laboratory inventory of specimens used in instructional activities including mineral and paleontology reference samples; maintain map and department rock and mineral

collection; prepare and stock laboratory with rocks, minerals and fossils as assigned; conduct field excursions to identify and collect specimens; create and arrange display of collections.

6. Prepares, sets up, operates, calibrates, maintains and repairs a variety of specialized equipment related to earth sciences such as microscopes, stereoscopes, rock processing equipment, grinders, laps, meters, balances, shakers, splitters, generators, samplers, projectors, telescopes, seismographs, tape players, cameras, hand and power tools and machinery, and a variety of other geophysical, astronomical, geological, and rock processing equipment.

7. Cleans and ensures proper storage of laboratory equipment; ensures laboratory and work areas are in clean and orderly condition.

8. Maintains accurate logs, reports, and records of work performed and materials and equipment used.

9. Monitors, orders, receives, stores, and maintains adequate inventory levels of supplies and equipment, including study specimens, charts, maps, field materials, and chemicals as directed.

10. Submits work orders for maintenance and repair of equipment and facilities.

11. Learns and applies emerging technologies and, as necessary, to perform duties in an efficient, organized, and timely manner.

12. Promotes an environment of belonging as it relates to diversity, equity, inclusion, social justice, anti-racism, and accessibility.

13. Provides quality customer service when interacting with the public, vendors, students, and College staff, including individuals from minoritized groups.

14. Supports and abides by federal, state, local policies, and Board Policies and Administrative Procedures.

15. Participates on committees, task forces, and special assignments, including, but not limited to Screening and Selection Committees and mandated trainings as required.

16. Prepares and delivers oral presentations related to assigned areas as required.

17. Performs other related duties as assigned.

Qualifications

Knowledge of:

1. Principles and practices of supporting a diverse, equitable, inclusive, socially just, anti-racist, and accessible academic and work environment.

2. Terminology, techniques, principles, theories, practices, and procedures related to the Earth Sciences program.

3. General methods and procedures for preparing course materials and laboratory exercises and demonstrations used in the Earth Sciences courses.

4. Set-up, operation, demonstration, and maintenance of various laboratory apparatus and equipment used in the Earth Sciences program.

5. Methods, practices, and techniques of student learning and instruction.
6. Modern office practices, methods, and computer equipment and applications related to the work.
7. Record keeping principles and procedures.
8. English usage, spelling, vocabulary, grammar, and punctuation.
9. Techniques for providing a high level of customer service by effectively dealing with the public, students, and District staff, including individuals of various ages, disabilities, various socio-economic and ethnic groups.

Skills and Abilities:

1. Advocate for and communicate the Colleges vision and commitment to creating a diverse, equitable, inclusive, socially just, anti-racist, and accessible academic and work environment.
2. Participate in addressing gaps in diversity, equity, inclusion, social justice, anti-racism, and accessibility in the recruitment and retention of staff.
3. Participate in providing resources and support towards the goal of a diverse, equitable, inclusive, socially just, anti-racist, and accessible academic and work environment.
4. Explain and apply principles, practices, procedures, methods, materials, tools, terminology, and equipment related to the Earth Sciences program.
5. Assist students and faculty in the use and operation of laboratory equipment and materials related to the Earth Sciences program.
6. Create an engaging and positive learning environment in a laboratory or other learning environments.
7. Maintain laboratory equipment, materials, and supplies used in the Earth Sciences program.
8. Interpret, apply, and explain applicable District policies, rules, and regulations related to areas of responsibility.
9. Estimate and order required supplies and equipment.
10. Establish and maintain filing, record keeping, and tracking systems.
11. Organize own work, set priorities, and meet critical time deadlines.
12. Operate modern office equipment including computer equipment and software applications programs.
13. Use English effectively to communicate in person, over the telephone, and in writing.
14. Understand scope of authority in making independent decisions.
15. Review situations accurately and determine appropriate course of action using judgment according to established policies and procedures.
16. Establish, maintain, and foster positive and effective working relationships with those contacted in the course of work.
