Posting Detail Information

Position Summary

A dynamic pain research group from the University at Buffalo is seeking a **Project Aide** to assist in performing behavioral and molecular experiments seeking to identify and validate novel molecular targets to treat pain. The research utilizes a combination of biochemical, molecular and pain behavioral approaches to validate molecular targets.

Specific duties in the lab include:

- Care of animals used in research
- Observation and recording of animal behavior
- Assist with small rodent surgery and preparation of tissue samples
- General laboratory maintenance

Candidates with animal experience will be given the highest priority.

Learn more:

- Our [benefits](#), where we prioritize your well-being and success to enhance every aspect of your life.
- Being a part of the [University at Buffalo community](#).

As an Equal Opportunity / Affirmative Action employer, the Research Foundation will not discriminate in its employment practices due to an applicants race, color, religion, sex, sexual orientation, gender identity, national origin and veteran or disability status.

Minimum Qualifications

- HS Diploma

Preferred Qualifications

- Research experience with small rodents
