Position Summary

Facilities Campus Operations at The University at Buffalo is seeking a candidate to fill the role of **Plant Utilities Assistant**. Plant Utilities Assistants perform various tasks in a safe and efficient manner in operating stationary steam or high temperature hot water boilers rated at 15 pounds per square inch or more.

Key responsibilities include:

- Maintain and repair chiller, boilers, pumps, other power plant auxiliary equipment, and electrical and mechanical stationary equipment
- Respond to calls concerning mechanical, electrical or plumbing breakdowns to troubleshoot the problem, make necessary repairs or advise the appropriate authority regarding the problem.
- Check mechanical rooms for correct operation of mechanical equipment.
- Operate and test water softeners and boiler water for correct limits.
- Take readings on meters and gauges to ensure proper operation.
- Check air compressors, blow down and add oil as needed.
- May supervise Plant Utilities Helpers as required.
- Experienced incumbents may be assigned a limited number of activities requiring the full performance level skills of a Plant Utilities Engineer 1.
