University at Buffalo

Full-Time

Posting Detail Information

Position Summary

The **Information Security Office**is looking for a **Security Incident Response Analyst** to focus on ensuring that the Digital Forensics and Incident Response aspects of in the Information Security Office is running in a consistent, professional, and progressive manner. This requires much documentation, detection and analysis, logistical coordination for mitigation, and diligent follow-up.

In this position you will:

- Monitor security alerts and coordinate responses to cybersecurity incidents.
- Analyze malicious activities and assess impact on university systems.
- Perform forensic investigations and root cause analysis of security anomalies.
- Identify vulnerabilities and recommend remediation strategies.
- Develop and maintain security playbooks for incident handling.
- Conduct threat intelligence research to enhance security defenses.
- Work closely with IT teams and external partners during incident resolution.
- Prepare detailed reports and documentation of security events.
- Conduct post-incident reviews and recommend improvements.
- Provide training and guidance on cybersecurity best practices.
- Assist in the development of security policies and procedures.
- Stay updated on the latest cybersecurity trends and technologies.

Additional Information:
