### Position Summary

The Department of [Microbiology and Immunology](#) at the University at Buffalo is hiring a Research Technician 1.

Under close supervision of Principal Investigator, the candidate will:

- Conduct a variety of routine experiments following established procedures and protocols, which may include performing assays, tissue culture, electrophoresis, PCR, DNA extraction, microscopy, animal work and other laboratory techniques.
- The technician will also record test results, maintain laboratory equipment and supplies, and monitor animal colonies.
- The candidate will provide technical assistance to postdocs/graduate students and other research staff within the group.
- The candidate will assist in the execution of small animal (mouse) handling and surgeries and participate in executing experiments involving cellular and molecular biology assays.
- He/she will be involved in the management and care of the animal colony.
- Other duties involve the maintenance of lab equipment, preparing stock solutions and placing various orders based on lab needs.

### Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
