Posting Detail Information

Position Summary

The department of [Environment, Health and Safety](#) is seeking a Manager of Safety and Industrial Hygiene.

This position will:

- Coordinate the general safety and industrial hygiene programs for all departments and units at UB.
- Assist senior management, line management, faculty, staff, and students on providing a learning and working environment where safety and health risks are minimized, and hazards are controlled.
- Work proactively, when possible, to identify areas of risk and work towards their resolution.
- Provide oversight of the EH&S health and safety program, providing site visits to audit and inspect for hazards.
- Reports feedback related to observations and findings.
- Provide guidance on conformance with safety and health related regulations as well as adherence to campus policies and procedures.
- Assists in the development of standard operating procedures and other responsibilities related to compliance with applicable regulations and recognized standards.
- Respond to requests for information, questions, or assistance from campus personnel on health and safety-related issues, protective equipment, and training.
- Participates in emergency response activities and investigations or accidents and injuries.
- Attends safety committee meetings to implement health and safety initiatives.
- Form working relationships with other Facilities personnel, as well as colleagues throughout the university community to gain information on risks and achieve safety goals,

commitment, welcomes all to apply including veterans and individuals with disabilities.

Minimum Qualifications

- Bachelors degree and at least 3 years of experience performing safety assessments and risk assessments in the workplace.
- Working knowledge of safety principles, risk assessment methodologies, and safety controls.
- Strong knowledge of federal, state, and local safety regulations
- Excellent customer service skills and strong interpersonal communications skills

A combination of education (including professional certifications) and experience may be considered in lieu of a Bachelors degree on a year-for-year basis.

Preferred Qualifications

- A strong background in safety, industrial hygiene, occupational health, safety engineering, environmental sciences, or a similar field
- Certified Industrial Hygienist (CIH) and/or Certified Safety Professional (CSP) designation
- Demonstrated experience in providing safety and health training with the intent to reduce risk
- Demonstrated experience in an academic or research environment
- Experience in supervising staff

Physical Demands

Must be medically cleared each year to wear a respirator and pass an annual medical evaluation and be successfully fit-tested in a full-face air purifying respirator. Must be able to move 20 lbs.

Salary Range

\$90,000 - \$110,000
