Position Summary

The [Department of Neurosurgery](#) in the Jacobs School is actively recruiting for a **Laboratory Technician**. This individual will work closely with the Principal Investigator (PI) in the cerebrovascular lab.

Job duties include:

- conducting experiments under supervision of the PI (animal care and surgeries)
- writing and revising IACUC and IRB protocols
- ordering lab supplies and maintaining the daily functions of the lab
- assist undergraduate, graduate and medical students in their research (qPCR, RNA-sequencing, cell culture)

Learn more:

- Our [benefits](#), where we prioritize your well-being and success to enhance every aspect of your life.
- Being a part of the [University at Buffalo community](#).

As an Equal Opportunity / Affirmative Action employer, the Research Foundation will not discriminate in its employment practices due to an applicants race, color, religion, sex, sexual orientation, gender identity, national origin and veteran or disability status.

Minimum Qualifications

- Bachelors degree in Neuroscience, Biology, Biochemistry, or related field.
- Minimally one year of experience directly related to animal care and surgeries including basic knowledge of the general physical characteristics and behaviors of animals used in an assignment and an ability to observe changes in animal behavior. Able to maintain records of an animals condition. Ability to handle rodents properly and safely.
- Minimally one year of experience with cerebrovascular research.
- Laboratory experience in qPCR, cell culture and histology.
