### Position Summary

The **Division of Population Health**, Department of Medicine within the Jacobs School of Medicine and Biomedical Sciences seeks a **Health Educator**. In this role as a Health Educator, you will deliver protocol driven health education interventions to study participants within the Division of Population Health via face-to-face, telephone, or videoconferencing technology as appropriate). The ideal candidate will practice strategic thinking, attention to detail, be dependable, enjoy working in a highly collaborative setting, and remain flexible in a fast-paced environment.

### Primary Functions:

#### **Protocol-driven health education and participant support tasks**

*This category includes responsibilities related to delivering structured health education interventions and supporting study participants throughout the research process.*

*Responsibilities include:*

- Delivering protocol driven health education interventions to study participants.
- Scheduling and coordinating sessions, attend and participate in supervision sessions, record sessions as directed, and perform research health educator data collection during initial visit and follow-up sessions.
- Organizing and reminding study participants of upcoming appointments.
- Training study participants on key elements of study protocol.

#### **Clinical research support tasks**

*This category includes tasks that require clinical expertise to support the implementation of research protocols and involving participant health assessments and biological sample handling.*

*Responsibilities include:*

- Collecting blood and other biological specimen samples
- Measuring and recording vital signs and anthropometric measures
- Reviewing, calibrating, and performing quality control assessments of lab equipment
- Serving as a liaison with lab staff to triage and interpret results

#### **Research coordination and community engagement tasks**

*This category includes responsibilities that support the operational, collaborative, and outreach components of research studies.*

*Responsibilities include:*
