Position Summary

This is a first-line position in which the candidate should expect to spend a majority of their time in the field assisting a Trades Generalist in responding to daily service requests (work orders) in support of the University's energy management equipment. This equipment consists of the building automation direct digital controllers, air handlers, VAV boxes, fin radiation, fan coils, exhaust fans, heat pumps, humidifiers, heat recovery units, and other heating, cooling and ventilation systems on campus.

Key responsibilities include:

- Respond to daily service requests (work orders)
- Assist journey level trades to diagnose, troubleshoot and service building automation systems (BAS) and electrical/mechanical equipment of all types found on campus. These are mechanical, electrical and computerized equipment used to perform energy management and climate control.
- Use computer to document service work performed
- Assist journey level trades in the removal or installation of electrical/mechanical building control equipment and systems
- Assist journey level trades involved in all facets of small mechanical equipment and BCS projects
- Provide high level of customer service
