Position Summary

Your future begins here - great benefits, great people. Join us today! The [University at Buffalo Foundation \(UBF\)](#) is searching for an **Application Analyst** to join our team.

Responsibilities for this position include, but are not limited to:

SOFTWARE MAINTENANCE AND QUALITY ASSURANCE:

- Maintain, enhance and ensure the quality of application software for UB Foundation, including but not limited to: AccuFund, Real Vision Software (RVI), Caissa, and UBs Strategic Information Reporting Initiative (SIRI).
- Utilize tools such as Visual Studio and SSIS to support data-driven applications, streamline data ETL (Extract, Load, Transform) processes, and ensure seamless data flow and integration across applications and systems.
- Support the development and maintenance of Oracle and SQL Server components such as stored procedures, functions, and views used in ETL workflows.
- Conduct quality assurance activities to ensure the reliability and efficiency of data.
- Develop and maintain documentation for reports, procedures, processes, and interfaces.

COLLABORATION AND PROCESS IMPROVEMENT:

- Identify and implement process improvements to ensure accuracy of data feeds and provide opportunities for growth and improvement.
- Engage with end-users to gather feedback and address user needs.
- Develop working knowledge of UB Foundation business office operations.

This position does not support immigration sponsorship.

Learn more:

- Our [benefits](#), where we prioritize your well-being and success to enhance every aspect of your life.
- Being a part of the [University at Buffalo community](#).
