Position Summary

The University at Buffalo is currently seeking a **Service & Repair Mechanic (Motor Equipment)** within the Campus Operations department. In this role, you will be responsible for performing skilled mechanical work within the fleet maintenance shop in the maintenance, repair, and overhaul of gasoline, diesel-powered, and alternative fuel self-propelled and non-self-propelled motor-driven equipment. May perform routine maintenance and mechanical repairs on disabled vehicles, construction, and other equipment in the field.

In this position, you will be responsible for the following:

- Diagnose and perform major and minor mechanical, electrical, and hydraulic repairs on self-propelled and non-self-propelled vehicles and equipment.
- Install body and fender work on self-propelled and non-self-propelled vehicles and equipment.
- Maintain gasoline, alternative fuel, and diesel engines; perform preventive maintenance and safety inspections of vehicles and equipment. When licensed by the Department of Motor Vehicles, may perform NYS Motor Vehicle Inspections.
- Maintain diesel powered equipment and components such as, hydraulic systems, transmissions and differentials, hydraulic and air brakes, automotive electronics, fuel injection systems, turbochargers and starting systems.
- Operate test equipment, hand and power tools, including equipment that assists in the diagnosis and repair of electronic engine control systems.
- Weld, cut, and braze a variety of materials using electric or oxy-acetylene welding equipment.
- May supervise, train, and instruct subordinates.
- Order, receive, and inventories supplies and parts for vehicle maintenance and repairs.
- Operate a variety of self-propelled motor vehicles and non-self-propelled vehicles and equipment to test proper operation.
- Other duties as assigned.
