Job Description	

Overview

The Cummings School of Veterinary Medicine at Tufts University provides 24-hour care for pets 365 days of the year. Since 1985, we have offered high quality medical care, consultation, referral and emergency veterinary services for the care of dogs, cats and exotic pets. In addition, the hospital creates a positive learning experience for Cummings School of Veterinary Medicine at Tufts University students and student technicians with regard to small animal medicine and supports the training of small animal medicine technicians.

What You'll Do

The Technician Supervisor in Oncology works as part of an integrated clinical care team to provide high quality nursing care to inpatient and outpatient radiation and medical oncology patients. The service offers chemotherapy and radiation therapy treatments to cancer patients in an integrated, team-based environment. We are seeking a supervisor with solid technical

competency, excellent communication skills and exceptional leadership skills. Cross-training will be provided in anesthesia, radiation therapy treatments, and chemotherapy administration.

As a Sr Vet Tech and Supervisor in Oncology you will:

Technical Responsibilities:

- Collaborate with administrative and clinical care team members throughout the hospital to coordinate and prioritize patient care
- Administer chemotherapy treatments in a safe and timely manner as ordered by clinicians to ensure delivery of high-quality patient care.
- Safely administer sedation and anesthesia to patients
- Safely monitor sedated and anesthetized patients throughout procedures
- Restrain patients in a calm, professional and compassionate manner.
- Work with clinicians to perform radiation and other specialty treatments including electrochemotherapy
- Collaborate with colleagues, co-workers, faculty, house officers and students to effectively manage a high-volume clinical workflow without direct supervisory oversight.
- Effectively communicate with internal customers to manage expectations for timing and patient care
- Actively seek opportunities to provide support and coverage to all modalities within the section when case volume in the assigned modality is low.
- Cross train in multiple modalities to increase depth of coverage for the department
- Assist in training, orienting, and mentoring new Veterinary Technicians in all aspects of the department

Leadership Responsibilities - Leadership responsibilities will be administered primarily on the clinic floor but will also include administrative time off the floor. The specific allocation of time will depend on the needs of the Services and the Hospital.

Responsibilities include:

- Collaborate with team members, Veterinary Technician Supervisors, Section Heads and Hospital Administration to ensure the successful operation of all the assigned section(s) and the Small Animal Hospital at large
- Oversee the allocation of veterinary technician resources for designated sections including scheduling
- Foster an environment of open communication, trust and respect. Conduct and attend team, section and supervisor meetings and meetings with individual team members to enhance communication.
- Oversee the recruiting and interview process for new veterinary technicians
- Oversee the training and on-boarding for new staff. Ensure the new team members understand the processes and protocols of the clinical operations.
- Provide feedback and coaching to individual veterinary technicians to enhance professional growth and improve performance. Offer feedback to the entire team to help develop healthy interpersonal dynamics within the group. Organize continuing education events for team members.
- Address questions and troubleshoot issues raised by the veterinary technician team. Elevate issues to the administration as appropriate. Provide input on problem solving and collaborate with administration in problem solving
- Lead the annual performance planning and evaluation process for the veterinary technician team by coaching on goal setting, performing mid-year check point reviews and annual reviews for staff performance. Recommend merit increases and promotions for veterinary technicians.
 - Assist Hospital Administration in the preparation of section budgets. Responsibilities include verification of section operating expenses, service contracts, creation of annual standing purchase orders and to make recommendations on the need for replacing equipment if needed for each specialty service section.
 - Oversee section finances including overtime budget, supply purchasing and reconcile p-card purchases, review and
