### Public Cloud Engineer (0520U), Infrastructure Services - 64417

### About Berkeley

At the University of California, Berkeley, we are committed to creating a community that fosters equity of experience and opportunity, and ensures that students, faculty, and staff of all backgrounds feel safe, welcome and included. Our culture of openness, freedom and belonging make it a special place for students, faculty and staff.

The University of California, Berkeley, is one of the world's leading institutions of higher education, distinguished by its combination of internationally recognized academic and research excellence; the

transformative opportunity it provides to a large and diverse student body; its public mission and commitment to equity and social justice; and its roots in the California experience, animated by such values as innovation, questioning the status quo, and respect for the environment and nature. Since its founding in 1868, Berkeley has fueled a perpetual renaissance, generating unparalleled intellectual, economic and social value in California, the United States and the world.

We are looking for equity-minded applicants who represent the full diversity of California and who demonstrate a sensitivity to and understanding of the diverse academic, socioeconomic, cultural, disability, gender identity, sexual orientation, and ethnic backgrounds present in our community. When you join the team at Berkeley, you can expect to be part of an inclusive, innovative and equity-focused community that approaches higher education as a matter of social justice that requires broad collaboration among faculty, staff, students and community partners. In deciding whether to apply for a position at Berkeley, you are strongly encouraged to consider whether your values align with our Guiding Values and Principles, our Principles of Community, and our Strategic Plan.

At UC Berkeley, we believe that learning is a fundamental part of working, and our goal is for everyone on the Berkeley campus to feel supported and equipped to realize their full potential. We actively support this by providing all of our staff employees with at least 80 hours (10 days) of paid time per year to engage in professional development activities. To find out more about how you can grow your career at UC Berkeley, visit grow.berkeley.edu.

#### **Departmental Overview**

Berkeley IT believes in and fosters a workplace environment where people can bring their diverse skills, perspectives and experiences toward achieving our goals through a process of critical inquiry, discovery, innovation, while simultaneously committing to making positive contributions towards the betterment of our world.

In addition, members of the Berkeley IT community have created and endorse the following values for our organization to augment and amplify the campus principles:

We champion diversity.

We act with integrity.

We deliver.

We innovate.

Diversity, Inclusion, and Belonging are more than just suggestions for us. They are the guiding principles underlying how we come together, develop leaders at all levels of the organization, and create an environment that unites us. We affirm the dignity of all individuals, call upon our leaders to address critical issues with integrity and intention, respect our differences as well as our commonalities, and strive to uphold a just community free from discrimination and hate.

This position is a part of the Cloud Team in the Data and Platform Services in Information Services and Technology. The objective of the Cloud Team is to provide the campus a service of core infrastructure on-premise (VMware) and in the Cloud (AWS). While also supporting and maintaining this core infrastructure to follow the campus-wide efforts to secure institutional data.

### Application Review Date

The First Review Date for this job is: February 26, 2024

### Responsibilities

- Applies advanced systems/infrastructure concepts to define, design and implement highly complex windows, Linux and cloud-based server solutions.
- Review, validate, and implement configuration changes to systems requested by customers; analyze customer requirements to provide design and implementation guidance.
- Proposes and implements highly complex system enhancements (software and hardware updates) that will improve the performance, reliability and security of the system.
- Manages centralized computer servers and makes recommendations for purchase or upgrade of new computer hardware as well as virtual machine components.
- Performs highly complex analysis to acquire, install, modify and support operating systems, virtual machine software, and cloud related solutions.
- Conducts highly complex systems support activities. Investigate and resolve problems and outages reported by monitoring systems or other means (such as customer or user tickets); participate in an on-call rotation to resolve incidents and problems.
- Author, test and maintain programs and highly complex scripts to automate standard processes and workflows to improve the reliability and performance of systems and the efficiency and scalability of the team to manage large numbers of complex systems.
- Initiates, plans, designs and implements hardware based and virtual systems solutions to maintain, improve, or evolve IT services, adding value by improving utility and reducing costs.
- Executes complex security control activities to prevent hackers from infiltrating campus information.
- Maintains complex security systems for servers and virtual machines.

beyond the core job function; continually strives to upgrade the depth and breadth of technical and professional skills; makes time for appropriate training, keeps current on tools, technology, and information needed to meet job performance and challenges; shares knowledge and supports peers, staff, and others to increase skills, foster improvement, and enhance outcomes.

Service Focus Skills:

 Values the importance of delivering high quality, innovative service to internal and external customers; understands the needs of the customer; responds promptly to customer and is accessible to them; follows through on customer commitments in a timely manner; maintains positive, long-term working relationships with customers; assumes ownership of process issues and takes appropriate steps to mitigate problems.

### Salary & Benefits

For information on the comprehensive benefits package offered by the University, please visit the University of California's <u>Compensation & Benefits</u>website.

Under California law, the University of California, Berkeley is required to provide a reasonable estimate of the compensation range for this role and should not offer a salary outside of the range posted in this job announcement. This range takes into account the wide range of factors that are considered in making compensation decisions including but not limited to experience, skills, knowledge, abilities, education, licensure and certifications, analysis of internal equity, and other business and organizational needs. It is not typical for an individual to be offered a salary at or near the top of the range for a position. Salary offers are determined based on final candidate qualifications and experience.

The budgeted salary or hourly range that the University reasonably expects to pay for this position is \$105,500.00 - \$130,000.00.

- This is a 100%, full-time (40 hours per week), career position that is eligible for full UC benefits.
- This position is exempt and paid monthly.
- This position is eligible for flexible, hybrid or fully-remote work (telecommuting) based on candidate availability and business needs.

### How to Apply

To apply, please submit your resume and cover letter.

### **Conviction History Background**

This is a designated position requiring fingerprinting and a background check due to the nature of the job responsibilities. Berkeley does hire people with conviction histories and reviews information received in the context of the job responsibilities. The University reserves the right to make employment contingent upon successful completion of the background check.

#### Equal Employment Opportunity

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or protected veteran status. For more information about your rights as an applicant, please see <u>the U.S. Equal Employment Opportunity Commission</u> poster.

For the complete University of California nondiscrimination and affirmative action policy, please see the University of California Discrimination, Harassment, and Affirmative Action in the Workplacepolicy.

### **Referral Source Info**

This job is part of the Employee Referral Program. If a UC Berkeley employee is referring you, please ensure you select the **Referral Source** of "*UCB Employee*". Then enter the employee's **Name**and **Berkeley email** address in the **Specific Referral Source** field. Please enter only one name and email.
