Job Description

The Department of Epidemiology and Environmental Health (EEH) is recruiting a **Research Administrator** to provide administrative support for faculty in both pre-award and post-award phases of pursuing and maintaining grant funding.

Pre-award responsibilities include:

- Direct award-seeking faculty to appropriate resources and provide guidance on procedures.
- Serve as a liaison to school and university-level research administrative offices.
- Assist faculty with navigating award submission and management systems, such as the Central

Study Registration System and Click Portal.

- Collaborate with faculty on the development of budgets and budget justifications, reviewing for consistency and accuracy. Collaborate on other portions of grant submissions, as appropriate.
- Orient new faculty to university procedures for grant development and submission.
- Communicate updates to policies and procedures to department faculty and staff.

Post-award responsibilities include:

- Review expenditures for allowability and allocation of charges.
- Reconcile expenditures, track budgets, perform budget projections, and administer reallocations.
- Assist faculty in the interpretation of grant-related policies and information requests, including preparation of progress reports and renewals.
- Interface with central administrative offices, such as Procurement and Sponsored Projects Services, on behalf of faculty and department.
- Execute requests for account backstopping, no-cost extensions, and other administrative coordination for research grants.
- Process personnel appointments, procurement, travel reimbursements and other grant-related expenditures.

This position requires strong professional judgement and independent resourcefulness, while handling time-sensitive matters that require excellent problem-solving skills and confidentiality. The Research Administrator will be a welcomed member of a high functioning and well-integrated team of professionals. We are committed to the ongoing development of an excellent and diverse community of scholars, staff and students engaged in education, research, and service. We encourage applications from women, members of minority and historically marginalized groups, veterans, and individuals with disabilities.

About EEH

The Department of Epidemiology and Environmental Health (EEH) is a dynamic workplace with a strong commitment to improving population health for over 100 years. EEH prides itself on its multidisciplinary faculty, with faculty research focused on chronic diseases (e.g., cancer, cardiovascular disease, osteoporosis, periodontal disease, diabetes, eye disease), environmental health, global health, women's health, reproductive and perinatal health, genetics, nutrition, health care delivery, quality of care, health policy, health economics, and health disparities.

About SPHHP

The SPHHP faculty and students engage in research and community activities designed to improve the

health of populations, communities, and individuals. The School's research portfolio continues to grow through interdisciplinary research collaborations within the University at Buffalo and with local, regional, national and international organizations. The School offers programs at every degree level and, in addition to epidemiology and environmental health, is the home to the departments of biostatistics, community health and health behavior, exercise and nutrition sciences, and rehabilitation science. It has a diverse student body which it is actively engaged in supporting. The School has an energetic equity, diversity and inclusion council and provides professional development opportunities in inclusive pedagogy and other equity-related issues. For more information about the school, visit www.sphhp.buffalo.edu.
